- Economic efficiency, investment, and operational costs.

10.2. Jury evaluation

The jury will assess the proposals according to the above criteria, drawing on the expertise and experience of its members. The evaluation reflects a professional but inherently subjective judgment. This approach is standard in design competitions, and by participating in the competition, participants agree to this evaluation method.

11. Follow-up negotiation and contract

11.1. Negotiated procedure without prior publication (NPWP)

In accordance with § 143 (2) and § 65 of the Act, the contracting authority will enter into negotiations with the participants awarded first, second, and third prize, in the competition regarding the follow-up contract described below.

11.2.2. The contract will be drawn up in Czech.

FS 3 – Documentation for building permit;

FS 4 – Construction documentation (including demolition works);

FS 5 – List of works and deliverables;

FS 6 – Author's supervision, all separately for each part.

One contract will be concluded for the square and adjacent public space, and the second contract for the apartment building itself. The square will be managed by the Statutory City of Hradec Králové from project preparation to implementation, and the apartment building project will be transferred by the contracting authority to a newly established housing cooperative, which the city plans to establish in 2026.

The contract will include standard, above-standard and procurement services of an architect, engineering, cooperation with the contracting authority, cooperation in the removal of defects and unfinished work, and commissioning of the building. The necessary surveys and measurements will also be provided by the contractor, depending on the type and scope.

The scope of other activities will be specified depending on the design, which will be implemented on the basis of a contract concluded in JŘBU.

The expected completion date, i.e. completion of the design work and issuance of a final permit for the project, will be within 30 months of commencement. The contracting authority expects the tender procedure for construction work to take place in 2027 at the earliest.

11.4. Estimated value of the follow-up contract

The fee for the execution of the follow-up contract within the scope defined in these competition conditions, will be determined in the negotiated procedure (NPWP) taking into account the indicative price offers submitted by participants.

The prize awarded in the competition will be counted toward phases FS 1 and FS 2, and will be deducted from the total price for the design services.
